Bio

Chrissy, Transgender Female, was born with Klinefelter syndrome and undiagnosed until adulthood. Klinefelter syndrome (Klinefelter's, KS, or XXY) is where babies (as in Chrissy's Case) are born with male genitalia but the sex chromosomes of a female, an extra X chromosome. Also, a former Federal Prison Inmate was released in February 2019. During her time, Chrissy taught one of Jesup FCI's largest classes, Personal Finance, in the Education Department.

Chrissy realized many inmates' crimes were financially driven and wanted to change that.

Chrissy's motto; "if you handle your finances a certain way, you will not put yourself in a position where you will be incarcerated again,"

Keeping her motto in the forefront, Chrissy hit the ground running upon her release, establishing Credit Master of Florida INC. in March 2019. CM of F is the parent company of a conglomerate of companies that includes: The Chrissy Shorter Foundation and Unveiled The Chrissy Shorter-Arnold Show, primarily focusing on teaching the underserved community about personal finances and fixing credit issues. Having helped assist over 1056 families to receive a home mortgage, 1200 families with an auto loan, and 27 truck drivers purchase semi-trucks, and 18 box trucks, just to name a few.
